

OVERVIEW

The 24VDCMOD is used to convert the 12VDC 500mA lockpower output on Hartmann Controls PROTECTOR.Net door controllers to a 24VDC output @ 245mA. This module is compact and convenient.

SPECIFICATIONS

PCB Dimensions

0.826" x 0.433"

INPUT

12VDC 500mA

OUTPUTS

24VDC 245mA

Wire Spec 152m (500') Max Distance, 2 conductors stranded 18 AWG.

CERTIFICATIONS

UL 294/ULC S319-05 listed, FCC.

HARTMANN
ACCESS CONTROL SYSTEMS

24VDCMOD

Module to Convert 12VDC 500mA Output to 24VDC 254mA

SPECIFICATIONS

COMPATIBILITY

Meant for use with any of the following part numbers:

POE-ODM-XB POE-ODM-XW POE-ODM-MB POE-ODM-MW PRS-2DR-Starter PRS-TDM

WARRANTY

3 year warranty
