Distribution Ring

Aluminum Distribution Ring

Cable management solution for data centers, commercial low-voltage applications and network cable pathways

Features:

- Die cast aluminum body for reliable performance and durability in harsh environments
- Available in 2″, 3″ and 5″ sizes
- Rounded, smooth edges prevent damage to cable jacket
- Supports multiple cable runs in horizontal or vertical orientations
- Suitable for server rooms, data centers, and back office
- Four mounting holes sized for #10 screws
- UL & CUL listed

Application:

- Use to securely hold & organize all types of insulated cable on walls, ceilings, racks, communication boards, audio boards, or splitter boards

Installation:

- Fastens to surface using a #10 screw tightening with screwdriver or screw gun
