

Prox Key-Fob

Prox - Sticker

Prox Card (thick)

Prox Card (thin/ISO)

RFID/PROX

ZKAccess RFID/Prox credentials can be used with any ZKAccess readers which have a built-in 125 kHz prox card reader

Note When ordering ZKAccess readers, be sure to specify which type card reader technology and credentials you need PRIOR to placing your order.

For customers already using existing non-ZKAccess card readers and cards, ZKAccess also provides 125 KHz key fobs which can be clipped on to existing customers' cards having a badge clip slot. And for customers having non-ZKAccess cards with no badge clip slot, we also offer 125 KHz self-adhesive RFID prox stickers.
